

Summary

Ambitious Software Developer with 2+ years of experience in building robust web applications using Python, Django, and React. Demonstrates a strong foundation in backend development, database optimization, and full-stack project execution. Highly interested in Artificial Intelligence technologies and their practical applications, eager to contribute to innovative and challenging projects.

Experience

Junior Python Developer at Digital Solutions Company	06/2021 - Present
- Developed and maintained robust backend functionalities for web applications, ensuring high performance and scalability. - Optimized database queries and schemas, resulting in improved application responsiveness and efficiency. - Contributed to the full software development lifecycle, from concept and design to testing and deployment.	

Education

Bachelor of Science in Software Engineering	09/2016 - 05/2021
Damascus University	

Skills

Python (Advanced), Django (Intermediate), JavaScript (Intermediate), React (Beginner), SQL (Advanced), API Development (Intermediate), Database Optimization (Intermediate), AI/ML Concepts (Beginner)
